PERSONAL PROJECTS

ISCB : Indian Smuggling Control Bureau (College Project) (MERN Stack) (01/2023 - 04/2023)

- As part of my academic pursuits, I successfully completed a challenging and impactful project named **ISCB (Indian Smuggling Control Bureau)** that focused on developing a robust system to **combat smuggling activities within our nation's borders**.
- The **ISCB** project not only allowed me to apply my technical skills in a real-world scenario but also provided a valuable opportunity to strengthen my **collaboration** and **teamwork abilities**.
- **Tech Stack:-** Node.js, Express.js, React.js, MongoDB, MUI, GitHub (Version Control).

Vongo: Ticket Booking Dashboard (Office Project) (React + Laravel) (11/2022 - 10/2023)

- Developed a dynamic event ticket booking platform Named **Vongo** supporting 32 languages.
- Utilized technologies like **Redux Toolkit, Next.js, Material-UI (Mui), Tailwind-Css** for seamless user experiences.
- Created custom sales pages and integrated them as Iframes for effective event promotion and ticket sales.
- **Tech Stack:-** Node.js, Laravel, SQL, React.js, MUI, TailwindCss, GitHub (Version Control).
